Comprehensive Multi-Room Audio Solution

From smaller single chassis installations to large multi-chassis implementations, ELAN audio over IP provides homes and light commercial businesses with centralized or decentralized solutions for multi zone audio. Where zones might be physically separated, or sources don't make sense to be placed in the rack, the ELAN multi-room audio networking solution lets you use the network to distribute audio. And, because no special network configuration is needed, installations are easier and faster.

Designed to Meet Your Needs in Any Room

	Multi Zone Audio Matrix EL-IPD-MTX-8CH	Multi Zone Audio Extender EL-IPD-AMP-EXT	Multi Zone Preamp Audio Matrix EL-IPD-PRE-MSI	Local Audio Source EL-IPD-PRE-SSI	Network Audio Card EL-IPD-NAC-EXT
