

Wire terminal grip CH-5000N

Suitable for cable lugs

Features

- For cable lugs with inner diameter from 6 to 12 mm.

Applications

- The cable lug has to be fixed with a screw and nut at the clamp.

Note

- Particular materials and shape can not be used.
- When you clamp wire for opposite direction, we recommend our CW-5000N.
- All information is subject to change without prior notice.

Specifications

Model	CH-5000N
Capacity	5000 N (500 kgf)
Sample diameter	6 - 12 mm (inner diameter of the cable lug)
Weight	approx. 315 g
Recommended force gauge	ZPH/Z2H, ZTA/ZTS-2500N, ZTA/ZTS 5000 N
Recommended test stand	MX2-2500N, MX-5000N
