

Wire Wrapping Grips GC-30, WC-2000

For measuring the strength of wires

GC-30

WC-2000

Feature

- They are suitable for checking the strength of wires, filaments, fibers, etc.

Applications

- The wire wrapping grips are installed on force gauge for tension test of various test pieces.

Note

- Particular materials and shape can not be used.
- Combining with a test stand, more stable measuring becomes possible.
- All information is subject to change without prior notice.
