

## Knurled Cam Grip for Cables GP-15 and GP-30

Suitable for pulling test of plastic tubes, thick silicone rubber, urethanes, electric cables, etc.

**GP-15**

**GP-30**

### Features

- Ideal for tension testing of soft and extensible samples.
- Reduces breakage of sample due to cam mechanism
- The design of the grip enables fast and easy clamping of the probe.

## Applications

### Note

- Some samples may not correctly be gripped depending on material and shape.
- Information within this document is subject to change without notice.

**Specifications**
